

Coral

co-ral: inspired by a variety of marine life with vibrant orange colours, also known as cnidarians, this colour has progressively evolved to include pink undertones since its conception on the 1500s.

The Coral features a larger home designed into a compact single storey, suited well to a narrow block. Greeted by a long entry hallway, this home is an entertainer's delight with a formal living room or home theatre towards the front and an open plan style kitchen dining area at the rear, leading onto the generous alfresco.
